

Add-on door Flex

Say goodbye to shrink-wrapping!

The Add-on door Flex is the easiest and most sustainable solution to transform your existing fleet of 2-sided roll container into a 4-sided load carrier. It eliminates the need for shrink wrapping, which reduces both handling times and costs of secondary packages and shrinkage. Can be attached to the roll cage with plastic hooks or velcros.

The 1270mm model fits 1550-1675 mm high roll containers.

The 1450mm model fits 1675-1850 mm high roll containers.

Technical specifications

Primary bottle type	1270/1450 x 900 mm
	includes two metal bars on the side
