

LIFTLINER® RC

- ✓ Transports a wide range of roll cages and dollies
- ✓ Very compact and agile design
- ✓ Loading and unloading from both sides
- ✓ Innovative rooftop shape and tilting technology
- ✓ Safe, ergonomic and user-friendly load carrier handling
- ✓ Very good tracking accuracy
- ✓ Up to 500 kg load per loading bay

THE SOLUTION

Transports up to 8 roll cages or dollies

Improves the handling of existing fleets

LiftLiner® RC

1 LiftLiner® RC	2 mother carts
1 mother cart	2 loading bays
Max. load per loading bay	500 kg
Max. train speed 2 LiftLiner® RC	8 km/h
U-turn radius 2 LiftLiner® RC	4500 mm

Roll Container

Minimum width	600 mm
Minimum length	700 mm
Maximum width	800 mm*
Maximum length	860 mm

* without collision protection

KEY BENEFITS

- Reduces manual handling
- Enables a forklift free production environment
- Reduces overall operating costs
- Streamlines Parcel and Retail operations

INNOVATIVE TECHNOLOGY

Two roll cages per mother cart

Easy & efficient loading

Safe & ergonomic unloading

Space saving scissors coupling
