

## **LIFTLINER® RC**

- ✓ Transports a wide range of roll cages and dollies
- ✓ Very compact and agile design
- ✓ Loading and unloading from either side
- ✓ Innovative rooftop shape and tilting technology
- ✓ Safe, ergonomic and user-friendly load carrier handling
- ✓ Very good tracking accuracy
- ✓ Up to 500 kg per loading bay

## THE SOLUTION

**Transports up to 8 roll cages or dollies**

**Improves the handling of existing fleets**

### **LiftLiner® RC**

1 LiftLiner® RC  
Max Train Length

Max payload per loading bay  
Max train speed 2 LiftLiner® RC  
U-turn 2 LiftLiner® RC

1 pair / 4 loading bays  
2 LiftLiner® RC  
(8 loading bays)  
500 kg  
8 km/h  
6000 mm

### **Roll Cage Compatibility**

Depth 600-800\* mm  
Width 700-860 mm  
Wheel Diameter 100-125 mm

\*Without collision protection

## KEY BENEFITS

- Reduces manual handling
- Enables a forklift free production environment
- Reduces overall operating costs
- Streamlines parcel and retail operations

## INNOVATIVE TECHNOLOGY

Two roll cages per mother cart

Easy & efficient loading

Safe & ergonomic unloading

Space saving crossbar coupling
